Q

MEANING; PURPOSE; PROCESS

Synopsis of the meeting addressed by  
the President in Hong Kong

JULY 30-31, 1986

Far East Region is a very important part of BCC PROCESS. The word 'PROCESS' is used instead of 'operation' because of the significance of the term 'PROCESS' which carries itself much beyond what it is used and understood and felt and acted upon. Each of us is a part of this PROCESS depending on his ability and desire. Each member can provide this PROCESS a direction apart from ensuring its health and quality and also making this PROCESS extremely profitable, productive and meaningful.

#### Existence

Existence is an unlimited and infinite ocean of MEANING and PURPOSE in which we either swim or float. We exist in the ocean of MEANING and PURPOSE. Do we exist at any moment of our life outside the ocean of MEANING and PURPOSE? Can we exist outside the orbit of MEANING and PURPOSE. Are we and our life beyond the orbit of PURPOSE? Can existence be without MEANING? Can existence be without PURPOSE? Existence is MEANING. I cannot be without MEANING; I am within the MEANING; I am myself the MEANING; everything that exists is MEANING - unlimited, infinite. Once you have experienced this your life becomes meaningful and you start realizing the PURPOSE; you would become the personification of MEANING and PURPOSE.

I have used the word 'Swimming' and 'Floating' to convey your state of being. What I mean by 'Swimming' is whether you are conscious of this truth and by the word 'Floating', I mean whether you are unaware or unconscious of it. By using the word 'Conscious', I come to the heart of the matter i.e. whether you are a MEANING of the PURPOSE and whether you have experienced this or not.

The PURPOSE and MEANING that I am, has its orbit without confines. This orbit of mine merges with its orbit of MEANING in its totality and that of PURPOSE in its totality. Until you realize that you exist in MEANING and its orbit, in the ocean of MEANING and PURPOSE and its orbit, you would not be able to relate to the PURPOSE of our

meeting. Existence is positive. Existence wasn't created. Existence doesn't exist without PURPOSE or without MEANING. There is nothing that exists and which is not a MEANING and which is not a PURPOSE. You are MEANING and you are PURPOSE.

Two things - MEANING and PURPOSE. Is PURPOSE a content of the MEANING or the MEANING a content of PURPOSE? Either way since both are infinite therefore the content would also be infinite.

Why should there be anything unless it is a PURPOSE. Have we a MEANING and a PURPOSE or we just exist. This is not philosophy; we are talking about truth. The problem is that language is so limited that it can never fully express truth.

Can you experience a MEANING? You are a PURPOSE and you are within the orbit of MEANING and PURPOSE both together. It is difficult to experience that you are the MEANING and PURPOSE all the time. It is difficult to remain the MEANING and PURPOSE all the time.

MEANING is just experiencing PURPOSE. Being a PURPOSE, MEANING is nothing but experiencing that you are a PURPOSE. MEANING is the interpretation of PURPOSE. PURPOSE is infinite, therefore MEANING and its interpretation is infinite. Everything is a PURPOSE and its MEANING has to be experienced within the overall orbit of the MEANING and PURPOSE that existence is, and that is what makes all of us a living being - performing, achieving.

What is Perfection? Perfection is your ability to become a part of the PROCESS. But if you seek perfection in isolation of the PROCESS, or you isolate yourself to become perfect as a unit it is just not possible because you do not exist as a unit; you are a part of the PROCESS and the better you become a part of PROCESS the more you move towards perfection.

However imperfect we may be, we seek perfection. We never achieve perfection but continue to seek it. Seeking Perfection is Perfection. For a human, perfection is not possible and the MEANING of perfection for a human is seeking perfection and seeking it all the time.

Your life is a PROCESS which is a part of a bigger PROCESS and that PROCESS is your energy, interrelating, interacting and interfusing with the energy of others. The MEANING and PURPOSE and Life is an existence of which you become a part of the PROCESS knowingly and while experiencing it. During the next three days, you will live and exist in the orbit of the MEANING and PURPOSE. There would be a MEANING in our experience and a MEANING of everything that we are going to talk.

There would be a MEANING and there would be a PURPOSE and the MEANING and PURPOSE would not be in words. It would only be an attempt to express it in words; but the words are not MEANINGS. MEANING is the sense of those words. When I say you would be existing within your orbit I mean that your ability to experience your sense to understand the MEANING. That ability would be existing in the orbit of MEANING. Your sense and your ability to grasp and comprehend the MEANING would be existing within that MEANING. When I would explain the new MEANING of banking, External Market Place to be a MEANING, which would not have been a MEANING to you until now, then that MEANING would be the orbit in which your understanding, your sense of comprehension and your ability to experience that MEANING would be existing. It would be existing within the medium, within the orbit of that MEANING. Your ability to experience what the MEANING is would be existing in the fold of the orbit of that MEANING. Once you have experienced this MEANING it would become your MEANING.

The New Meaning - how nice it is to experience that you exist in PURPOSE. It would give unlimited happiness if you can for a moment feel and experience that you are PURPOSE and MEANING. You live in MEANING and PURPOSE. You can't escape it. Become conscious of that and start experiencing it. I am a MEANING. I am a PURPOSE. PURPOSE and MEANING both are not tangible. The MEANING is so captivating and the PURPOSE is so exhilarating, so refreshing; that is what life is, and life is so beautiful. Life, MEANING, PURPOSE - they are one. My soul lives itself into MEANING; it becomes a PURPOSE. My spirit trims itself into MEANING. My spirit is a PURPOSE.

PURPOSE is quality. My MEANING is love and my PURPOSE and my MEANING is my soul. My PURPOSE is to be a positive part of the process that life is. My PURPOSE is to bring happiness and quality to people. My PURPOSE and my MEANING is to experience that PROCESS that life is and to experience the PROCESS as it becomes me, and as that PROCESS becomes a bigger PROCESS. It goes on interacting and interfusing, interrelating with a PROCESS which ultimately reaches its totality. It becomes the cosmic PROCESS.

If you and me are relating and interacting in positive terms and interfusing in love, then your and mine MEANING is success. Not success for myself alone. My MEANING is becoming one with possibilities, and my MEANING and my PURPOSE is my soul. Success is my soul. My MEANING is that I am a part of the PROCESS that this region is. My MEANING and PURPOSE is that the entire region becomes a PROCESS of such quality, a PROCESS which is so positive and a PROCESS which is a PURPOSE. Nothing but success and happiness for all. This is my MEANING, my soul, my spirit. This is the MEANING and this is the orbit of the MEANING in which we exist.

The spirit, that ethereal substance of such beautiful elements, is all over and that is all MEANING and all PURPOSE. You are all over in that MEANING. See and experience your dimensions; dimension is not a word that can be used because it implies confines and boundries. For me a dimension is dimensionless. That is you and that is your PURPOSE. You can reach God when you can get out of your own created dimension.

Your soul and your spirit becoming the new PURPOSE and MEANING. It is so refreshing when it is presented to you and if you experience it, you have gone a long distance in reaching and moving towards it. The most important thing is that while you would be experiencing the new PURPOSE and MEANING, simultaneously you would also be experiencing your quality and ability that you really have, because if you understand the MEANING and experience it, you would be measuring whether you have the quality and the ability to translate that new MEANING or not. So both would go together.

People are my life. My PURPOSE is that your instinct become the best instincts.

"We are all a society of MEANING". Everybody has a subjective MEANING. None of us can deny that there is a totality of MEANING, cosmic MEANING and PURPOSE. There is a corporate MEANING similar to cosmic MEANING. There is an individual MEANING within the corporate MEANING. There could be a MEANING other than your MEANING which is the subjective MEANING.

Whether you would like to hold on to your MEANING or would you like to accept the corporate MEANING? Is there a meeting point? What is that meeting point and what is the method and means to meet the two and bring them together? And which is your preference? What is the method and mean that you can bring them together? It is a question

of your ability to understand life being a MEANING and PURPOSE. When you become not only a part of the PROCESS but the PROCESS itself, you have then accepted the cosmic MEANING or for that matter the corporate MEANING. So the question is whether you accept this or accept life as your own specific identity.

Is life a PROCESS?

Could we have been made up in isolation and could you have been a static position? If it is none of this, then life is a PROCESS. If it is a PROCESS then there cannot be a subjective MEANING. It is a question of knowing, accepting, becoming this MEANING. Then Far East Region is a PROCESS, if it is a PROCESS then Far East Region is a MEANING. You are a MEANING together with the corporate MEANING.

You have to accept it. It is the truth. You can make the PROCESS. You can participate in making the PROCESS. You can contribute in making this PROCESS. You can change the MEANING of the PROCESS, but only if you change it, not if you fight and hold on to your MEANING.

Assignment

1. Assignment is becoming one with the PROCESS and assimilating others in the PROCESS.
2. Assignment is experiencing the MEANING, the PURPOSE and the PROCESS.

Bridging the Gap

Bridging the gap is Action. Action on your part and the largest number of people whom you make a part of the PROCESS. In order to bridge the gaps (the gaps between us now as we are and what we would be in 1990,

1997, and beyond) there would be blocks and breaks and problems. In order to overcome them you have to experience and acquire MEANING and PURPOSE in your soul and spirit, because your MEANING Is your PURPOSE, your soul, your spirit. We would become new people - bridging the gap, operating and solving difficulties, individually and collectively. We will become a PROCESS in solving them.

### Truth

Your understanding about the corporate MEANING should not be confused with organisational objectives and PURPOSE. Apply the truth to the corporate, the branches and your situation. If you accept this truth and make others accept it too, then there will be an explosion of profit, result, PROCESS.

Life does not exist itself as an identity. It is the relationship of various identities, elements, PROCESS. You are constantly losing and at the same time gaining your identity. For us identity has a PURPOSE. We lose our identity to acquire a bigger identity. Bigger the identity; bigger the PURPOSE.

You are afraid of real freedom. The freedom from self. You always want freedom from others. When you free yourselves from your identity you become part of the PROCESS. When you become part of the PROCESS, the PROCESS becomes your identity.

### Fundamentals

- a. Your responsibility and accountability to yourself, by becoming part of the PROCESS.

- b. Responsibility and Accountability to yourself to be able to bridge the gap between the MEANING and PURPOSE and the PROCESS, that Far East Region is.
- c. Assuming the responsibility and accountability for achieving the PURPOSE of your assignment.
- d. Acquire your freedom from the prison of your identity and become the PROCESS.
